## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments filed 12/12/2005 have been fully considered but they are not persuasive.

A/. In response to the Applicants' arguments stated page 16 of the Remarks wherein the Applicant stated as following:

***“...To overcome the provisional obviousness-type double patenting rejection, Applicants file a terminal disclaimer herewith in compliance with...”***  
(Emphasis added).

However, the Examiner did not find such terminal disclaimer filed and/or attached to the Applicants' "Reply and Amendment" as filed on 12/12/2005. Therefore, the Double Patenting Rejection to the claims has been maintained and repeated as following.

B/. In response to the Applicants' arguments, stated from pages 16 through 30, concerning the rejections of the pending claims 1-39 with the applied prior art, the arguments are moot. Therefore, the rejections to the claims are withdrawn.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re*

Art Unit: 2643

Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-39 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of copending Application No. 10/023,407. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are directed to the same subject matter with minor wording variations.

This is a Provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

4. **THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).**

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will

the statutory period for response expire later than SIX MONTHS from the date of this final action.
